

31 January 1975

[redacted]

STAT

Attached are the files for the USC/FAR. In August 1974, Mr. Walsh appointed [redacted] as the succeeding CIA Rep to the Subcommittee, vice Mr. Ford. In brief, I've numbered the folders 1, 2, 3, and 4; they contain the following:

STAT

#1 - Chrono

Key to filing would include all correspondence bearing the names of Platig, HyLand, and others as appropro.

#2 - CONSOLIDATED RESEARCH PLANS

This correspondence will be self-explanatory for the subject will always indicate Consolidated Research Plan in it. This will include originating memo from State, CIA's contribution to same, and the final version of what transpired. (Ordinarily will be a set of three pieces of correspondence per year)

#3 - CONSULTATIVE GROUPS

This folder contains a listing of each CIA Rep to the various Consultative Groups (i.e., country specialists) under the USC/FAR.

#4 - INVENTORY OF GOVERNMENT-SPONSORED RESEARCH

This folder contains an Inventory of Government-sponsored Research (ie., CIA's contribution re funding of various research projects, correspondence re FAR Horizons -- Key name is currently [redacted])

STAT

I've screened these files considerably, leaving mainly current and backup correspondence for [redacted] ref in the coming year. Since CIA's status on the subcommittee is Observer, this business will be very low-profiled and not really much of a burden in addition to other duties. Should there be any questions on this, and as [redacted] is aware, [redacted] is a tower of knowledge with the USC/FAR business.

STAT

STAT

[redacted]

STAT

Attachment: Records Shelf List (see reverse for explanation)

NOTE: Should any questions ever develop regarding FAR History, etc.,
I've attached a Records Shelf List of what I've retrieved to Archives.
[redacted] will supply you a job # should you ever have to recall these STAT
files.)
